

Muhammad Osama

Profile

Graduate in Electrical Engineering passionate about working in a new environment. Capable within the group work, having led multiple semester projects to completion during my graduation. I have a good grasp of the implementation of analog and digital circuits. Highly motivated and hard-working person. Would be very delighted if I got this chance.

Employment History

Intern at Pakistan Ordnance Factories, Wah Cantt

Jul, 2019 - Aug, 2019

Visited different departments related to our field. During the internship, I am able to see how things work practically which we just read in our academia and it was a great experience for me.
